

## WHO REMEMBERS RAY?

Veterans' Champion  
'Rough Ridin' ray Fulton

Who remembers the remarkable Ray Fulton. (Some knew him as Rough Ridin' Ray)

He revolutionised the VVFA office, was mainly responsible for doubling our membership and organised the purchase of the old bank which is now our Granville headquarters.

He also ran Pension Officer and Advocate courses round Australia. Even when DVA began its own courses, most of our members preferred Ray's.

His, along with Tim McCombe's advocacy, is responsible for the St John of God Hospital courses for PTSD sufferers.

Ray had many demons of his own but could never do enough for his fellow veterans.

He loved veterans and many of us, in return, loved Ray.

Here is a book whose central character is Ray.

It's author had been an anti-Vietnam War protestor who wanted to understand the veterans' point of view.

She got that in spades from Ray.

*The Third Chopstick* is the name Ray gave for his explanation of what it was like to be a veteran.

The book is highly recommended.
